To Whom It May Concern:

Last year, after reading Ty Bennett's book, *The Power of Influence*, I decided to have him as our speaker for our annual Owner/Managers Banquet.

Ty's message on leadership was both entertaining and applicable. Our owners and managers came away with important skills that they felt could be used to enhance their relationships with their employees and lead their organizations more effectively. The feedback from our audience was extremely positive and we heard consistently that he was the best speaker we had ever hired. In fact, we conducted a survey and our organization voted to have him back again this year.

At this year's meeting, Ty's speech on "The Three C's of Leadership" was equally impressive. He was very interactive and engaging, allowing everyone in the audience to be part and fully absorb his message. Once again, our people loved it!

If you are ever looking for a leadership speaker who is relatable and engaging but also shares real world strategies and advice - I highly recommend Ty Bennett.

Sincerely,

Gary Turnidge
