

Technical Requirements

Keynote: Redefining High Performance

(Note: Ty provides the Ninja Rig)

Although this keynote involves unique elements with set up, take down, and execution, **Ty prides himself on being easy to work with**. He and his team are committed to making this a **seamless, stress-free process** for you and your production crew.

AV Requirements

- **Sound:** Wireless lavalier microphone for Ty, plus a handheld wireless microphone for the Ninjas during their demonstration.
 - **Projection:** Large screen(s) with HDMI input for visuals (PowerPointa provided by Ty).
 - **Lighting:** Standard stage lighting to ensure clear visibility of both speaker and Ninja rig demonstration.
 - **Audio/Video Technician:** On-site technician to manage cues, sound levels, and media playback.
-

Venue Requirements

- **Stage Size:** Minimum **30' wide x 15' deep**
 - **Ceiling Height:** Minimum **17' clearance**
-

Rig Set Up & Take Down

- **Set Up:**
 - 2 hours required for rig assembly **before the conference session**
 - PLUS 1-hour rehearsal/warm-up with 2 Ninja Warriors (must take place **before the session**)
 - **Take Down:**
 - 1 hour required for rig breakdown **after the session**
-

Ninja Warriors in the Keynote

Two Ninja Warriors will be part of the speech. Most often, this will be **Ty's sons, Tanner and Drew**, who are both nationally ranked Ninjas.

- If one of them is unavailable, another **nationally ranked Ninja** will participate.
 - If your event has a **special need or theme where a female Ninja would be ideal**, Ty's team is happy to discuss and accommodate.
-

Special Notes – Flexibility in Setup

Ty and his team understand that every venue and event flow is different. They will work with you to find the best solution. Examples include:

- **Rig placement flexibility:**
 - On the floor for smaller audiences.
 - Off stage with **IMAG projection** to transition smoothly between stage and rig.
 - Custom smaller rig built for rooms with limited space.
 - **Creative integration:**
 - Taking down the rig during a **15-minute break** following the keynote.
 - Hiding the rig behind curtains for a dramatic **reveal before the keynote**.
 - **Multiple rigs available nationwide:**

Ty has **multiple rigs stored around the country**, so he can bring one from the region where your event is taking place. This reduces shipping costs, simplifies logistics, and ensures a seamless experience for your audience.
-

Insurance & Liability

Ty carries a **liability policy** that insures both the rig and participants. A copy of the **Certificate of Liability Insurance (CLI)** can be provided upon request.
